

Wall collar

HMK DN 160

Article no.: 1400050160

Water barrier flange for water pressure-tight integration of pipelines in floor slabs, concrete walls or shafts.

FACTS

Application range:

- Standing seepage water, Pressurised water, Waterproof concrete stress class 1

Advantages:

- Quick to install

Scope of delivery:

- 1 x water barrier flange
- 2 clamping straps

Properties:

- Suitable for all standard smooth pipes

Material:

- Water barrier flange: EPDM
- Clamping straps: W2

Tightness:

- Gas- and watertight

FEATURES

Diameter range (mm): 154 – 166

Wall collar OD (mm): 247

Packing unit (pieces): 5
